EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Fred Hernandez on September 4, 2007.

The application has been amended as follows:

Claim 1. A flexible ocular device for implantation into the eye formed of a biocompatible elastomeric material, foldable to a diameter of 1.5 mm or less, comprising a fluid drainage tube having at one end a foldable plate deployed within a suprachoroidal space, to locate the device on the inner surface of the sclera in the suprachoroidal space formed by cyclodialysis, wherein said drainage tube has an internal lumen that opens into the suprachoroidal space and onto the plate near one end and wherein the internal lumen opens into the anterior chamber when implanted into the eye at its other end, so as to provide aqueous pressure regulation.

Claim 22. An ocular device for implantation into the eye, comprising: a fluid drainage tube having at a first end an anchor member deployed within a suprachoroidal space on an inner surface of the sclera so as to locate the first end of the device on an inner surface of the sclera, the fluid drainage tube having an internal lumen wherein the a first end of the lumen of the drainage tube opens into the suprachoroidal space and a second

end of the lumen of the drainage tube opens into the anterior chamber when implanted into the eye, so as to provide aqueous pressure regulation.

Claim 27. A flexible ocular device for implantation into the eye formed of a biocompatible elastomeric material, foldable to a diameter of 1.5 mm or less, comprising a fluid drainage tube having at one end a foldable plate deployed within a suprachoroidal space, to locate the device on the inner surface of the sclera in the suprachoroidal space formed by cyclodialysis, said drainage tube opening into the suprachoroidal space and onto the plate near one end and opening to the anterior chamber when implanted into the eye at its other end, so as to provide aqueous pressure regulation.

Claim 28. An ocular device for implantation into the eye, comprising: a fluid drainage tube having at a first end an anchor member deployed within a suprachoroidal space on an inner surface of the sclera so as to locate the first end of the device on an inner surface of the sclera, wherein the first end of the drainage tube opens into the suprachoroidal space and a second end of the drainage tube opens into the anterior chamber when implanted into the eye, so as to provide aqueous pressure regulation.

Please cancel claims 10-18, withdrawn from consideration in a previous Office action.

Election/Restrictions

This application is in condition for allowance except for the presence of claims 10-18 directed to an invention non-elected without traverse. Accordingly, claims 10-18 have been cancelled.

Art Unit: 3761

Conclusion

The prior art made of record and not relied upon, U.S. Patent No. 6,050,970 to Baerveldt, is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melanie J. Hand whose telephone number is 571-272-6464. The examiner can normally be reached on Mon-Thurs 8:00-5:30, alternate Fridays 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tatyana Zalukaeva can be reached on 571-272-1115. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
